

LAKEWOLD GARDENS

An Inspirational Experience

Never Underestimate the Quality of Felco Pruners

Never underestimate the value of quality pruners! Recently, I purchased some new red vinyl covers for the handles of my bypass-style pruners and thought to myself, "This is why you spend good money on quality products."

These Swiss made pruners are durable, repairable, and simple to work on and sharpen. From the rubber stops to the cutting blade, all the parts on the Felco pruner are repairable and replaceable. They have twelve different styles that range

from the Original #2 to specifically designed pruners for left handed gardeners. In today's disposable society it is nice to know that there are quality products that are designed to last a lifetime and hold up durably.

A good gardener has their pruners on them at all times--say it is just part of the uniform! The Felco pruner is by far the most valuable investment a gardener can make.
